Certificate III Animal Care Services

PET GROOMING

CRICOS 106302D

NEW Course

Course Description

The Certificate III Animal Care Services - Pet Grooming, is the **NEW** Australian Nationally Recognised qualification for dog groomers. This is the most comprehensive and detailed course available in Australia. This qualification gives you the knowledge, skills and techniques to work as a dog groomer in the pet industry.

The Certificate III in Animal Care Services - Pet Grooming replaces (supersedes) the Certificate III in Pet Grooming (ACM30617).

Students concentrate on the grooming of dogs, including brushing, combing, clipping nails, cleaning ears, bathing, drying techniques, clippers and scissor finishing techniques as well as proper pattern setting for various breeds. Emphasis is placed on perfecting grooming skills while concentrating on proper breed profile, increasing speed and efficiency while developing maximum grooming potential.

The curriculum has been designed to ensure that the students learn to groom in a skillful, responsible, and professional manner and that their scope of knowledge creates highly qualified professionals. Under the direction and instruction of qualified grooming teachers, students acquire the techniques and skills necessary for competence in the field of professional pet grooming and styling. Practical grooming applications and handling techniques are complemented by a structured self-study program.

Entry Requirements

To be eligible for this course, you must:

- ✓ Be at least 17 years old
- ✓ Completed Year 10 or Equivalent
- ✓ Internet access and email address
- ✓ Able to attend the campus (Gold Coast) for practical training.

Study Methods

Students have up to 12 months to complete the course. However, many students are able to complete their study within this time frame based upon the amount of hours dedicated to study each week

The course program is taught using a blended approach (online & classroom).

The theory (knowledge) is taught and assessed via our online learning platform. This allows students to start study at anytime and learn the required knowledge prior to attending the academy for the practical training.

The practical training (hands-on) is completed at the academy under the guidance and support of our qualified teachers and groomers for **5 weeks** full time. This ensures the student is taught the hands-on skills required to become a qualified groomer while being guided by our team. During the practical training, students have access to a range of dog breeds to groom and are able to practice and perfect their skills in a safe environment.
